BRADY® WHEN PERFORMANCE MATTERS MOST™

BradySoft™ 8
Label Design Software

VERSION 8 BRADYSOFT™ LABEL DESIGN SOFTWARE

The one labeling solution with cost-effective, scalable options that add money-saving features and save time.

Whether your organization is large or small, BradySoft 8 Label Design Software offers the scalable add-on options to let you build the system that works for your organization and increases your return on investment.

Look inside for more of the options you need to meet all of your organization's labeling needs.

Advanced labeling made simple.

BradySoft™ 8 Label Design Software is a powerful labeling program that helps your organization manage assets and resources, control distribution channels and stock levels, track documents, or manage data records – all in one scalable solution.

Design tools for fast label design

No special training required with these intuitive, easy-to-use features:

- Define colors and patterns for text and image objects
- Create or add Rich Text File (RTF) objects
- Organize data from external data sources
- Label Design Wizard that's intuitive and easy to use

Don't re-type – import for faster, more accurate labels

Easily import information from spreadsheets and data tables right onto your labels with fewer errors.

- Import data from multiple database connections
- Database tables can be easily created, modified, or deleted
- Custom Query Designer for selective record printing
- FREE Database Manager Tool lets you print directly from the database

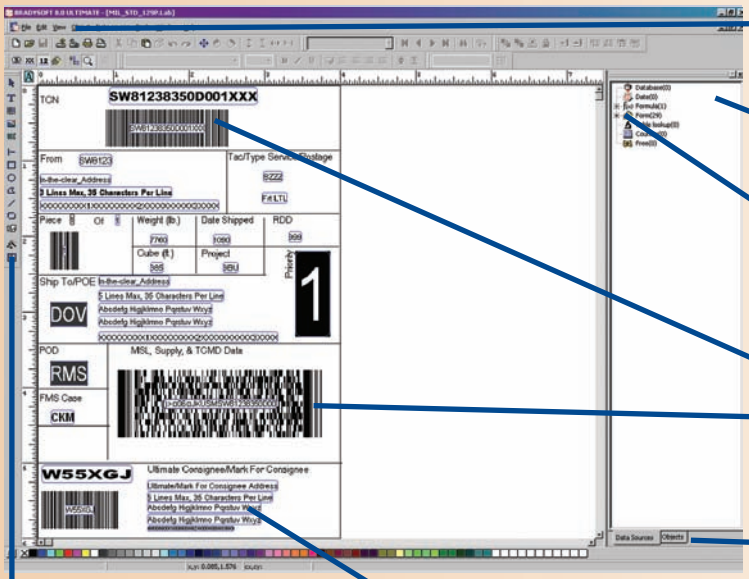
No-hassle, automated label printing

BradySoft 8 Label Design Software makes label printing faster and easier:

- Create and print faster with business-specific print formulas
- Streamline the process with control variables for batch printing
- Encode complicated labels for trouble-free printing

VERSION 8
BRADYSOFT™
LABEL DESIGN SOFTWARE

The tools you need, where you need them:



7 **Easy to Use Tools** – manage security, print, and connect serial devices

6 **Document Browser** – lists every object for quick access

5 **Drop & Drag** – easily select objects and place into label space

4 **Linear bar code** symbologies and 2D bar coding capability

3 **Data Source** – share fields between labels; use formulas for standardized labels

1 **Enhance Objects** – sharpen text or create chemical formulas

2 **OLE DB/ODBC Connectivity** – access all database formats (Access, Oracle, SQL Server); multiple database connections allowed

Create fast labels for safety, tracking, brand identification, and more. Increase safety and ensure code compliance with rating plates, Arc Flash labels, and other safety labels. With the BradySoft 8 bar coding features, you'll be able to track inventory, data, or lab samples. You'll also be able to create name plates, push button labels, and more for your entire organization.

BradySoft 8 Label Design Software – A Version For Every Need

Whether you need a print-only version or an integrated end-to-end network solution, there's a BradySoft 8 software version for your organization. Get the power to easily and quickly design and print labels with text, bar codes and graphic images, fixed data or from databases.

BradySoft 8 Standard (Part Number BS80STND)
The tools you need to design and print labels including text, bar codes, graphics, and fixed or variable data, using user-defined or database-driven information.

BradySoft 8 Network 3 (Part Number BS80N03S)
All the features of BradySoft Standard, but in a networked configuration. Available in versions for 5 to 50 users.

BradySoft 8 Ultimate (Part Number BS80ULTM)
The most text editing and bar code features, plus incorporated security features. This is the best choice for advanced database importation and integration with third-party programs.

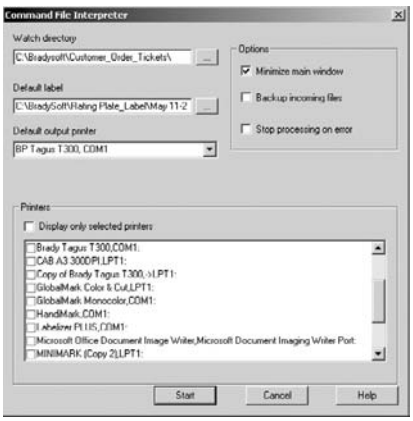
BradySoft 8 RunTime (Part Number BS80RUNS)
A print-only version that allows users to quickly and easily print labels, but not manipulate them.

Find the version that's right for your organization.

BradySoft 8 Standard Software – the solution to make labeling faster and more effective:

- Standard features include UNICODE, Printer Code Converter, Auto Save, One-Level Password, Hidden Objects, TextArt, and Color Graphic Reduction.
- Programmability includes ActiveX Basic and UFO read.
- Customizable form management features set input format, minimum input length, and automatic prompt.

Increase your labeling capabilities with these BradySoft 8 Standard add-ons:



Database Manager:

Query a database for selected information, and import data from multiple data sources into single or multiple labels. ***FREE*** with BradySoft 8 Standard Software.

COMet:

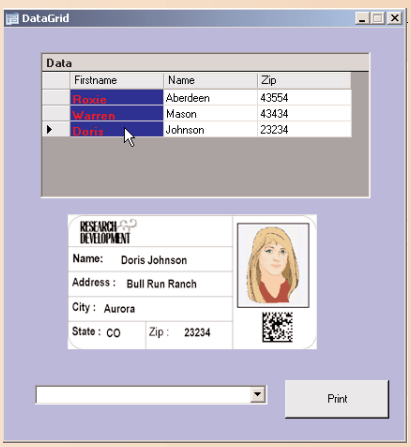
Provides the ability to extract data from peripheral devices like scanners, scales, and PLC devices, with a step-by-step wizard that makes label design faster and easier. ***FREE*** with BradySoft 8 Standard Software.

Command File Interpreter:

Automate the label printing process and simplify the flow of label information through your organization. Automatically transfers information generated by other systems and computers, and prints correct labels. Available for purchase with BradySoft 8 Standard Software.

BradySoft 8 Ultimate – Every feature of BradySoft 8 Ultimate, including the available add-ons, plus:.

- RFID label design through a user-friendly interface, with the ability to print and program Radio Frequency Labels simultaneously.
- Listfields, used to spread data in tables to create orders, invoice documents, ratings, nutrition and pharmaceutical labels, and more.
- Linked counters to create serialization schemes for labels that need to run through a specified legend.
- Save Query feature for accessing the label for printing.
- SQL mode to edit queries and filters.
- BradySoft 8 Network 3 – All the functionality of the BradySoft 8 Ultimate version, but in a networked configuration for 5 to 50 users. Add BradySoft Sentinel™ S/5 for an integrated, end-to-end solution.



Increase your labeling capabilities with these BradySoft 8 Ultimate Software add-ons:

Form Designer:

Create your own easy-to-use, customized wizards that standardize your labeling operations and make it faster and easier for employees to create clear, accurate labels. Available for purchase with BradySoft 8 Standard Software.

HTML Form Generator:

Step-by-step wizard guides you through backgrounds and label options to generate a simple, web-based interface where you can access a label, provide a quantity, and print. This feature helps maintain consistent label formats throughout your organization. ***FREE*** with BradySoft 8 Ultimate Software.

Printer Object File Manager:

Print labels to a thermal transfer printer without the BradySoft software, from platforms other than Windows. Expand your printing capabilities for more efficient and cost-effective labels, and eliminate the need for custom code creation. Available for purchase with BradySoft 8 Ultimate Software.

BradySoft Sentinel™ S/5 – the integrated end-to-end solution.

Available for purchase as an add-on to BradySoft 8 .

BradySoft Sentinel S/5 software allows organizations to integrate information from separate technologies and automate the entire labeling process without costly custom programming. Designed for Enterprise/networked environments such as laboratory, manufacturing, shipping and receiving, transportation, and other industries.

How BradySoft Sentinel S/5 Works:

Sentinel S/5 is a program that automatically responds to new data and completes the label-making and printing process according to parameters you define.

1. Sentinel software can detect new data from a directory, a TCP/IP port, a print spool, a web server, a web service, or a Teklynx IDEAM data collection application.
2. Data can then be automatically placed into a label format previously designed in BradySoft Label Design Software and sent for printing.
3. The data can be reported in real-time updates, stored in a database, or transferred to a web service.

Sentinel Features:

- Data Collection Adapter – the end-to-end solution that finds new data across technologies
- Web Service and HTTP support – integrates into remote locations and existing web applications
- Database Adapter with Query Manager – logs and transfers data to Enterprise databases such as Oracle and MicroSoft SQL
- Allows multiple printers to share print jobs
- Allows any system to connect to the Sentinel print functions
- Works with all BradySoft Network versions

Save time and money with a single, scalable, cross-platform system.
For more information about BradySoft Sentinel S/5, contact Brady or your local distributor.

Server Requirements

Hardware Requirements:

- IBM compatible PC (486 or higher)
- 64 MB RAM for Windows® 2000 or Windows® XP users (128 MB recommended)
- 256 MB RAM for Windows® Server 2003 users (512 MB recommended)
- SVGA monitor or better
- Hard Drive with 150 MB free space or greater
- CD ROM drive

Operating System and System Files:

- Microsoft® Windows® 2000, Windows® XP or Windows® Server 2003
- Microsoft® Data Access Components 2.8 (MDAC) or greater
- Microsoft® .Net Framework 1.1

Application Requirements

- Microsoft® Internet Explorer 6.0 or greater
- Adobe Acrobat Reader 6.0 or greater

BRADY®

WHEN PERFORMANCE MATTERS MOST™

LabelMark™ V3 Labeling Software

The fastest, easiest way to create labels.

LabelMark V3 Labeling Software is designed specifically for the needs of telecomm, electrical, laboratorys and general industrial companies.

Create safety and code compliance labels like Short Circuit Currency Rating (UL508A) and Arc Flash; track inventory, data, or samples; create name plates, push button labels, and more – all with one easy-to-use program.

Quickly create, view, and print with easy editing features

- Edit text elements – simple text entry, formatting, and editing
- Fast label templates – easily edit often-used label templates
- Redesigned toolbars and menus – easy access to all program features
- Find and replace – quickly search and replace text in label files
- Label preview – lets you see labels before you print for more accuracy
- Add barcodes – several common bar code symbologies available
- Add date/time – easy insertion of date and/or time fields into the labels
- Pre-installed symbols library – features electrical, datacomm, and safety symbols

Edit, view, and import data for multiple labels at once

- Serialization wizard – guides users through simple or advanced serialization
- Automatic legend repeat – add multiple text elements for quick wire marker creation
- Multi-label view – for true WYSIWYG representation of label formats
- Data import wizard – simplified data importing for spreadsheets and ASCII text files using ASCII, ODBC, and OLE DB data links. Import external data on multiple labels
- Seamless integration with NetDoc™ Network Documentation and Cable Management Software – export network asset IDs directly into the LabelMark software for quick, easy printing, labeling, and network documentation updates and management

Quick printing with Brady printers and label materials

- Multi-format – accommodates all Brady stock and custom formats
- Versatile printer options – Supports most WINDOWS® printer drivers; is compatible with Brady's TLS 2200® Thermal Labeling System, TLS-PC Link™ Thermal Labeling System, IDXPERT™ Handheld Labeler, Wraptor™ Wire ID Printer Applicator, 300MVP Thermal Transfer Printer, and Tagus™ T300 Thermal Transfer Printer

LabelMark™ V3
Labeling Software

Primary Applications:

- Wire and cable marking
- Terminal block marking
- Control panel and component marking
- Rating plate identification
- Quality assurance labeling
- Voice and data equipment labeling
- Asset identification
- Warehouse bin and shelf labeling
- Vial, tube, slide, and well plate labeling
- TIA/EIA/ANSI 606A compliant
- Conduit and voltage marking
- Patch panel identification
- 110-block marking
- Cable tray identification

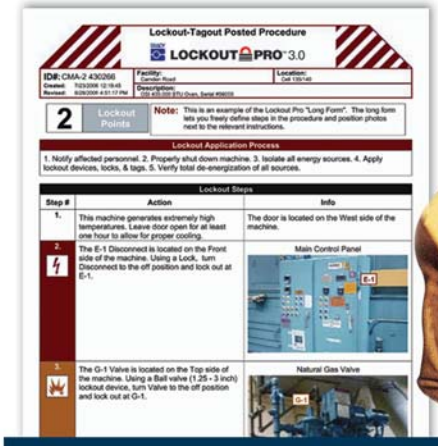
BRADY®
WHEN PERFORMANCE MATTERS MOST™

BRADY WHEN PERFORMANCE MATTERS MOST™



LOCKOUT PRO™ 3.0

Graphical Procedure Writing Software

For safety and compliance, call in the PRO.

Get the one tool that helps save time, money, and lives.

Brady Lockout PRO™ Graphical Procedure Writing Software helps you avoid costly OSHA fines and unnecessary downtime by making it easy to create and implement an OSHA (1910.0147)-compliant hazardous energy control lockout program.

With easy-to-use design features, you can create and post clear, easy-to-follow, customized procedures, tags, and energy source labels that help employees work faster, safer, and more efficiently.

Create clear, easy-to-follow procedures in minutes

- Start immediately with easy-to-use templates and built-in defaults
- Access a database of standard graphics, terms, and information
- Insert images to create clear, machine-specific procedures that identify the location of control points
- Print to a standard inkjet or laser printer, or to Brady's GlobalMark™ Industrial Label Maker or HandiMark® Portable Label Maker
- Provide viewing and printing access to users in multiple locations with the FREE viewer and HTML viewer applications
- Export to CMMS or ERP

Customize procedures for your organization

- Edit any template text or graphics easily and quickly
- Change terminology on standard templates
- Add custom text with point-and-click efficiency

Create, maintain, train, update – with one program

- Use Lockout PRO software's built-in sample energy control policy to develop your own comprehensive energy control program
- Create machine-specific lockout procedures for different locations; ensure that location-specific safety needs are addressed
- Manage and update your procedures with automatic time- and date-stamping
- Train your employees with online tutorials and built-in video training clips in Enterprise versions
- Access current OSHA lockout/tagout standard with a few clicks

For more information, to view a free demo, or to order Lockout PRO Graphical Procedure Writing Software, go to www.bradyid.com/lockoutpro or call 1-888-311-0775.

LOCKOUT PRO™ 3.0

Graphical Procedure Writing Software

What's New in Lockout PRO 3.0 software

- Rich text formatting allows users to change font and format text in the text boxes.
- Administer user groups for multiple policies at multiple locations.
- Check In/Check Out feature prevents multiple editing or overwriting.
- Customize defaults for company-specific procedures and energy sources.
- Create multiple labels and custom text labels to be placed on photos within the lockout/tagout procedure.
- Improved IT administrator features allow Enterprise Lockout Pro applications to be moved to a user PC from a central server.
- Easily convert Lockout PRO 2.0 and 2.2 files into the version 3.0 format.

Find the version that's right for your organization

Lockout PRO 3.0 Desktop
(Part No. LOPDESK1001) Single desktop version.

Lockout PRO 3.0 Enterprise Basic
(Part No. LOPBASIC3001) Three users, single server license.

Lockout PRO 3.0 Enterprise Corporate
(Part No. LOPCORP2001) Unlimited users, single server license.

System Requirements

All versions require:
- Operating System: Microsoft® Windows® 2000/XP
- Microsoft® Internet Explorer 6.0 or greater
- Microsoft® .NET framework 1.1 or greater
- Memory and Monitor Resolution Processor: 1.2 GHz or greater
- Display Resolution: 1024 x 768 or greater
- 512 MB RAM
- 500 MB Disk Space
- Compatible Printers: Brady GlobalMark™ Industrial Label Maker, Brady HandiMark® Portable Label Maker, Sheet-fed Laser or Inkjet Printers

Additional requirements

Enterprise versions:
- Access to installation of Lockout PRO Enterprise Server over an intranet
- Operating System: Microsoft® Windows® 2000, Windows® 2003, or Windows® XP Professional
- ISS Support: configured and enabled
- Protocol: TCP/IP
- Server Processor: 1.2 GHz or greater (2.6 GHz recommended)
- 512 MB RAM (1G recommended)

To order Lockout PRO™ 3.0 Software, go to www.bradyid.com/lockoutpro or call 1-888-311-0775.

markware™
Facility Identification Software

MarkWare™ Software covers all your safety and facility identification needs in one powerful package

Use MarkWare™ Facility identification software on your PC to quickly design professional-looking signs, labels and tags.

MarkWare™ makes it easy to create:

- Safety and facility signs
- Equipment labels
- Pipe markers and valve tags
- Warehouse and bar code labels
- Accident prevention tags
- Chemical warning labels
- Badges, asset ID labels, hard hat stickers, DOT shipping labels… and much more!

From simple labels to complex signs, MarkWare™ does it all.

Powerful features:

- Outputs to Brady industrial printing systems, as well as most inkjet and laser printers
- Hundreds of templates cover a wide range of facility ID applications
- Freely customize or create your own label designs
- Advanced drawing and formatting tools simplify the creation of intricate designs
- Over 1,000 safety symbols and industrial pictograms
- Import your own logos, photos and other graphics
- 15 different bar code symbologies, plus serial numbering
- Includes database of 2,000 chemicals for creating RTK warning labels.
- Import data from external spreadsheets and databases
- User interface can be displayed in 11 different languages
